Fate leaves Chandni shattered when her beloved Rohit disappears from her life. She meets Lalit and they befriend each other until Rohit knocks on her door. - I want to stay with you - You can't stay with me. Chandni says, her eyes filled with tears, - You were happy with your family. - I'm not happy with them. I love you Chandni, says Rohit, and I will always love you. - You have to get back into your life, Rohit, Chandni says, - And you have to find your own love. "I'll find you," he promises. - No, she says, - You won't find me. I can not live without you. - I love you Chandni - repeats Rohit.
