Updates for in the last several months, the samsung blog has said "we will be updating our navigation maps in the autumn" and even more recently on the UKblaupunkt facebook page also says we have nav updates this year. My concern is that none of these posts have any date associated with them. I'd like to assume that they will eventually be updated, but how long? I have a few questions, but these seem to be too specific. How do you get the updates? Or is it automatic? And if it's automatic, is there a plan? What countries are you using update for? Is it a free update or do you have to pay? What is your samsung model? I'm using the samsung sgh I300 but i'm not sure if the I300 or the I300d has the same update.
