GTR R35 MK3 mit Techworld V13 Basic+ Chiptuningbox: PDF-197KB: 21.Q: Disallow users from executing a stored proc with input value I created an automatic generation of SQL Server stored procedures (ID-Attribute + Prefix) and then I need to add some security to prevent users from executing the stored procs directly. I use SQL Server 2008 R2. Is there any way to block users from executing stored procs with a specific input parameter? A: Here's a blog post that describes how to create a custom stored procedure template using your own logic. There are a number of limitations to this approach. Stored procedures run in SQL Server as a T-SQL text. They can
