The left side is OK and in the other apps all is OK. I have tried to restore the phone and update 1Password and Photos to the newest version but this problem remained. I also installed 1Password and Photos in new iPhone 6. I tried to update Photos through Xcode. I changed the language to English and it was OK for a few minutes but then the problem occurred again. The settings of iPhone appear fine (as in this picture). A: After the restart
