$z^\beta$  be an  $\mathcal{O}_K$ -basis of  $\mathcal{O}_K^\times$  and set  $G = \{\mathbb{Z}[1/p] \cdot z^\beta\}$ . Note that  $G$  is a compact open subgroup of  $K_p^\times$  and that it centralizes the subgroup  $K_p^\times$ . Thus,  $G$  is normal in  $K$  and  $C_{K/\mathbb{Q}}(G) = K^\times$ . It is the group of the principal congruence subgroup of level  $p$ , and thus,  $C_{K/\mathbb{Q}}(G) = C_{\mathcal{O}_K/\mathbb{Z}}(G)$ . For the congruence subgroup  $\mathcal{G}$  we can choose  $\alpha \in K$  which is  $\mathbb{Q}$ -linearly independent to  $\{1/p, z^\beta\}$ . This is possible because  $\mathcal{G} \subset K_p^\times$ . Thus, we get  $\begin{aligned} C_{\mathcal{G}}(G) &= C_{\mathcal{G}}(\mathbb{Z})_p \left( \left( \right. \right. \end{aligned}$

**, Okinawa is a region on the south coast of the island of Okinawa in Japan. There are numerous tourist resorts as well as residential areas located along Jōmon-era streams and coastal cliffs. National Route 258, a scenic route, runs along the coastline to the east of Matsushiro Beach. In addition to high class resorts, the area has a few noteworthy establishments specializing in Okinawan dishes for tourists. Geography Location Sakura Beach is located in the south-western mountains of the island. There are many dirt roads, paths, highways, resorts and shops, plus the ruins of a traditional village along the coast of the Pacific Ocean. Thi Bay Island is located across the Shuri Channel. Thi Bay features beaches, cliffs and the remains of former Okinawan villages. Bazaars and restaurants are located in Thi Bay. Edo-jima Island is located to the west, with the Daiseikai Shingu National Park to the north and the Boryeong-eup Seowon in East Korea to the south, covering the Zuigan-no-uchi area. Highlights One of the features of Sakura Beach are ancient, man-made shell mounds. The mounds, made of stones and large stone slabs, grew as people built wigwams, temples and longhouses. There are thirteen distinct types of mounds in the area. Some of the mounds can be climbed on. The beach at Sakura Beach is the site of Kurokomagatsuta Shrine. The shrine contains an unassumed 18th century wooden statue of mizuko no kami. The name Sakura (Japanese sakura), refers to the many red blossom cherry trees that grow here, reaching up to the second story of some houses, and the flowers that cover the rocks along the beaches. The flowers come mostly in the spring and are known as irimochi meaning "autumn" in Okinawan. Cherry Blossoms are also a popular feature of the beach at Isahaya, on nearby Yonaguni Island.
