cast: benicio del toro, gary sinise, tommy lee jones a gritty, realistic, unvarnished and bloody tale of a platoon in a confused battle in the ardennes forest. the story is not a standard combat movie but is told as if it were. this is a genuinely affecting and honest piece of cinema. it's gritty and unsentimental but not without a certain degree of humour and gives off a powerful sense of realism. the result is one of the best war movies of the 21st century. cast: adrian brody, tom berenger, rosanna arquette the red tractor epic is a sprawling and ambitious epic that takes in the entire war from the point of view of a single american company on the rhine. it's a huge movie and a sprawling and ambitious epic that takes in the entire war from the point of view of a single american company on the rhine. at nearly nine hours long, it's a long and ponderous affair but if you can stick with it you'll enjoy it greatly. big, loud and bombastic, it's kind of the cross between saving private ryan and das boot. deliciously weird and completely mad, this was the first single-mindedly autobiographical war movie ever made. the battle of algiers followed a group of french resistance fighters in the algerian war. it was a daring and controversial move, the sort of movie which would have been left to the censors if it had been made anywhere else. the fact that it was made in italy meant that algiers could be made. director gillo pontecorvo's near-silent movie was hailed as a masterpiece, and it arguably remains one of the greatest war movies ever made.

## Enemy At The Gates Movie Torrents

the best war movie of the 1990s. it takes place in late 1944 in the immediate aftermath of the battle of berlin. the film follows a group of men from the us 9th army (a group of real-life soldiers) who are part of the u-boat fleet that has been launched to bring in supplies. the first half of the movie is superbly edited and paced, the second half more slowly paced, but no less powerful. the film has a clear beginning, middle and end, but it is the richness of the characters and the quiet power of the central relationship that is the real joy. a great war movie with an excellent cast. this was the first movie i saw that showed the war as a serious threat to the health of the men who are involved in it. at the time, the us was on the defensive. tension mounts as the men are told they are going to be sent to the front, and that they might not come back. soldiers start to have a mental breakdown, and one of them tries to kill himself. the film ends with the soldiers being sent to the front. it is an unflinching film, and the title is not a pretence. the tone of the movie is a bit like a clockwork orange, and it has the same musical score. it was a good decision to cast ray winstone as a colleague of an american sniper - that way, they could both play gunslingers without the sense of an alien invasion. many have criticised the casting, but it's a brilliant choice for the following reasons. the german officer is a sympathetic and plausible monster. so it's not a stereotype, which is good. ray winstone is a good choice because he does actually look like a bad guy. mark hamill is good because he doesn't sound like a nazi. you can see why enemy at the gates won't be for everyone. it's very bleak and depressing, and it's hard to look at its depiction of the war without thinking about it's horror and the atrocities that took place. but i think it's an absolute essential viewing. it is a masterpiece in the german cinema.
