New Remedies added from modern provings. The Homeopathic Clinical Repertory includes all of the original Kent's Repertory plus additions from Allen, Boericke, Boenninghausen, Burnett, Clarke, Grimmer, Hahnemann, Hering, Julian, Knerr, Kunzli, Nash, Phatak and plus thousands of clinical updates from Dr. Murphy's years of homeopathic and herbal research. Robin Murphy's four decades of experience has enabled her to design a course that not only teaches homeopathy in a clear, concise and interesting way but also makes the practice of homeopathy more accessible to your practice of homeopathy. I have always been skeptical of those who say that homeopathy is an occult practice. Robin's course has not only demystified homeopathy, but has made it attractive, yet alluring for you and your patients. Robin's course is an excellent and valuable resource for all homeopaths. Highly recommended, and I'm sure that all who attend will be enriched by the experience of having Robin teach them how to apply homeopathy in their practice. Keep up the great work Robin! From Robin, I am pleased to announce the release of the online course "The Basic Principles of Homeopathy". This course was created to meet the demand for a concise online course that explains the basic principles of Homeopathy. This is the first course that Robin has delivered as an online video series. The in-depth nature of this course exceeds the needs of students as it will allow them to take courses according to their own schedule. Well-versed in the field of homeopathy, Robin has written this course to address every facet of homeopathic practice and its application to each of the conditions listed in the Clinical Repertory. This course requires the student to focus on two-way learning so Robin provides countless opportunities for students to explore the topics covered in the course at their own pace. The instructional tools that are included in the course include lecture notes, video lectures, self-quizzes, practice tests, and much more!
