Founded in 1989, by time the label ceased operation in 1992, they had released three albums and had one single, the band Purple Ocean released a single on the label. History In 1989, the group known as Moby was formed by Dirk Moszkowicz. They played in a punk rock band called Family, and then formed their first band in the psychedelic style, Moby & The Cannibals. Their music was very psychedelic but electronic and was composed at the time by the band's rhythm guitarist Peter Wasilewski. The Cannibals' first single was released on the BMG Vigotone label, titled "Funky Organ Funk" on 8 July 1990. It was well received by the band's fanbase, although the single's producer was the biggest obstacle for the group at the time: Ronald Reinsberg. Reinsberg didn't know what to do with "Funky Organ Funk" and discouraged Moby to release it, which they eventually did in August of the same year with their self-released debut album, Why? which featured the "Funky Organ Funk" as its opening track. The band managed to fulfill their main ambitions in their first self-released album: get the desired attention in the field of psych and make a name for themselves in it. Moby & The Cannibals released the next single on the label in 1991: "Heavy Psychedelic Vibes" b/w "Snowflake", a song that received some airplay in the German underground music community. The band intended to release another single, but due to the label's low budget, they were unable to do so and the single never got released. In 1993 they released their first full-length album, The Game, which was a conceptual album meant to reflect life and psychedelic experiences. The band had started to play gigs and soon found themselves attracting the attention of several record labels, including BMG. In July 1993, to coincide with the release of The Game, BMG released a reissue of Moby & The Cannibals' single "Funky Organ Funk", which became a major cult classic
